

## Jigsaw Study Session

### Rules:

-Participate 100% in the task	<del>I got the right answer</del> I can explain why my answer is correct
-Collaborate	-Take care in your final product

Everyone in the group will collaborate, but each person has their own final product written out. You could all have the same example problems, but make sure everyone is writing out explanations and is ready to turn it in at the end of class.

1) a) Complete the problems in the section assigned as practice. b) Decide what the \$20,000 pyramid words would be.	2) -Review it, study it, then explain it to each group member.	3) Write down the formal steps for solving this problem. (first you must.... Then you.... Etc.)
4) Your document will contain the \$20,000 pyramid problems, the completed review problems, an explanation of how to solve the problem(s) as well as what is listed in 5) and 6)	5) Provide:  -2 easy example problems  -2 difficult example problems	6) Provide a key for the example problems.
